

Our books highlight the politics, histories and cultures of the various countries our missionaries have lived. They teach that ministry work is not always Americans going out into the world. In many cases, God brings people who have lived through challenging experiences to the United States where they indeed become missionaries to those around them.

TRUE STORIES

These exciting, real life accounts of danger, struggle and redemption make religion come alive and open minds to tragedies and suffering happening in countries we know little about. The books portray the faith journeys of missionaries and their immigration to the United States, which was not always easy. They are ideal for middle and high school students in Christian schools, confirmation classes, Christian youth groups and homeschoolers and are sure to generate meaningful discussions.

Be Inspired!

The Lord is calling missionaries to America to strengthen the church, but too many times their voices are not heard. For generations, missionary stories have inspired the next generation to go abroad and serve. It's the every-day, humble people in our missionary stories, who let God completely guide their steps whom He is using to do great things here in the United States. Read stories of great faith and incredible courage with divine intervention.

Growing Missionary Hearts is a ministry of Mission Nation Publishing and your local mission leaders. Your church purchases a minimum of 25 books from the missionary series at the wholesale price of \$12 (plus shipping) and you receive a free cardboard book display. Selling the books at your church for a suggested price of \$20 each, gives a profit that your church uses to support a mission of your choice, outside of the congregation. A grant from Thrivent can make the first order free. This program enables your congregation to participate in supporting the new missionaries to America, and encourages growth and commitment to your church's missions.
